SEVENTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, SEPTEMBER 6, 1906.

No. 36

HOPKINS COUNTY

Medical Society Met in Earlenton Last Week.

WERE GUESTS OF ST. BERNARD.

Below is a group of Hopkins county's progressive physicians who are members of the Hopkins County Medical Society. The society met in Earlenton last week, as was stated in *THE BEE*, and were entertained by the St. Bernard Mining Co., at the office of Drs. Nisbet, Sisk and Johnson. After the business session was concluded they adjourned to the Hotel Victoria, where the following delightful menu was served:

Fruit Cocktail
Consumme
Celery Crackers
Baked Shad
Cucumbers
Brown Bread
Mock Terrapin
Olivs
Chicken a la Maryland
Peas Potatoes
Roman Punch
Russian Salad
Ice Cream and Cake

Cheese Crackers
Coffee
After having regaled them selves with these tempting viands they were grouped by Photographer Corbett for the accompanying cut. The fact that these gentlemen had just dined no doubt accounts for their pleased expression.

There were sixteen members present and a very interesting programme was carried out. The visiting members expressed themselves as having a most enjoyable as well as a profitable visit and each had something nice to say of Earlenton and her people.

FIRE IN REINECKE MINES

Has Been Extinguished—Amount of Damage was Small.

The fire that broke out and gained considerable headway in the south entry of Reinecke mines a few days ago has been extinguished by flooding this part of the mine.

The work was done under the supervision of the foremen of the St. Bernard, Victoria and Reinecke mines. Work in the other parts of the mine went right on without interruption.

LABOR DAY

Celebrated in Madisonville—Rain Spoils Dinner.

Labor Day was observed by some of the laboring men of Hopkins county in Madisonville Monday. A parade was formed at the foot of Brasher Hill and about 500 men marched from that place to Spring Lake Park. Capt. Ed Young and Bradley Wilson, acting chairman of the Farmers' Organization, headed the procession, followed by the Madisonville brass band, the city council and representatives of various organizations.

The largest delegation were the farmers of Hopkins county numbering about 200. The crowd was quiet and orderly. Unfortunately, the dinner, consisting of a quantity of barbecued meats with bread and pickles, was partially spoiled by the hard rain at the noon hour.

JAMES SMITH

Agents for L. & N. at Slaughtersville Commit Suicide.

James Smith, the nineteen-year-old son of Mr. Winfield Smith, of Slaughtersville, took morphine yesterday morning at 8:15 and killed himself. Conductor Eastwood, on a local, left Slaughters about 8:12 a. m. and Smith said to him just prior to the train's pulling out: "When you return I will either be gone or shot to death." Eastwood saw the boy was in trouble, but had no idea it was serious. In a few moments after the train left Smith pulled a vial from his pocket and in the presence of Rudolph Ashby, his assistant, took the contents. In a short time he began to stagger around in the office and Ashby, becoming uneasy, went for assistance. When Ashby left the office Smith started to his home and fell on the way, where he was found in an unconscious condition. He was carried home and medical assistance summoned as quickly as possible, but it was too late to save him. Smith has been agent at Slaughters only a few weeks. His father is a prosperous merchant of that place and well known. It is not positively known just what caused the young man to commit suicide, but it is known that he was in trouble.

SOLDIER BOYS

Who Made Splendid Record at Camp Harris.

COMPANY G OF EARLINGTON.

In this issue of the *Bee* is given a cut of Earlington's crack Military Company. This picture was taken while the boys were in camp at Henderson last week where they made a record to be proud of. This company is composed of Earlington boys and they conducted themselves in a creditable manner while on the encampment as is their custom.

COMPANY G MAN

Makes Best Record on Target Practice in the Third Regiment.

The cut shown below is a very good likeness of Private Roy L. Buck, of Company G, Earlington, who established a new record on rifle target shooting at Henderson last week by making a score of 118 out of 150.

He also came very near winning the State medal, missing it by a small margin. He made a score of 41 at the 200 yard range, where the marksman stand in a standing position; at the 300 yard range, at which fir-

While at Henderson this company was inspected by Gen. Roger Williams who complimented Capt. Paul Price on the splendid showing his company made.

Not satisfied with having the honor of best marksmen at Paducah last year company G also bore off the honors at Henderson this year as having the best marksmanship in the 3rd regiment. It is possible if not probable that company G will next year go to Jamestown Va., for their encampment. This will give them a chance to visit the exposition which will then be in progress.

EIGHT HUNDRED MEN

Walk Out of I. C. Shops Because no Ice Water is Furnished.

Paducah, Ky., Sept. 4.—Because there was no ice water supplied at 7 o'clock this morning for the hundreds of blacksmiths, boilermakers and helpers in the Illinois Central shops, the entire force walked out and gave the company until 1 o'clock to fill the barrels with ice water.

The officials said that the men who have this in charge failed to get the ice to the shops on time. The supply was rushed to the shops on a special engine, and this afternoon the men went back to work. About 800 were affected.

Sunday Outing

A number of Earlinton young folks spent Sunday in Dawson, leaving here at an early hour and driving through the country.

The party was in honor of the Misses Hayden, the charming visitors of the Misses Foard. Well filled baskets were taken and enjoyed by all, especially worthy of mention was the basket taken by Mr. Jim Maloney and contained such an excellent array of good things. Among those who composed the party were Misses Drew and Bernice Hayden, Lena King, S. A. Stokes, Sue Foard, Mary Barry, Mable Gough, Richie Stone, Nannie Susanner, Messrs. Eldred Davis, Frank and Harry Withers, Jim Malone, Reginald McEuen, Brick Southworth, Arden Livingston, Henry Martin and Nell Byrd.

there be any manner of "shuffling off" known to mortal man which is not found in the 800 pages of this report, it must be rare, indeed, for although the figures are compiled for only eleven states known as the "registration area", the population covered represents about one-third of the whole United States. Of all the various causes of death as shown by the figures, tuberculosis is the commonest. Out of 2,642,555 cases reported by the report, 310,700 were due to the great white plague, which is generally known, is commonest in crowded communities. Pneumonia, coming next, accounted for 205,894 deaths in the registration area. Like tuberculosis, the report shows it to be more prevalent in cities. Typhoid fever, of which so much is heard, comes pretty well down the list, with 35,867 deaths at its door, a larger proportion of which occur in the early fall. It comes below heart disease—a very elastic term—with 192,549 deaths; intestinal troubles, with 160,107; Bright's disease, with 136,320; apoplexy with 110,165; cancer with 106,119; and bronchitis with 62,883, and is closely followed by meningitis and diphtheria and croup—a very fragmentary list of a few of the more acute ills to which flesh is heir. Suicides numbered during the period and in the area covered by the figures, 20,834, or about 1 per cent of all deaths. The most common method is by poison, firearms and strangulation following, the latter method being more prevalent in the country districts. Apparently the two periods which mark the beginning and the end of the heated terms are most dangerous to human life. Various diseases manifest greater activity in metropolitan or rural areas, as the case may be, and while it is easy to understand why tuberculosis should be more active in the cities, it is not quite so easy to explain why typhoid fever is much more prevalent in the country. Diseases of the nervous system likewise occur about as often in the small town as in the large city, in spite of the nervous

This record is a remarkable one, as Mr. Buck had just been relieved from guard duty, having been on guard 24 hours, but notwithstanding this fact he made the best score of the regiment. The regimental and company medals were fastened upon the report, by Col. Henry in the presence of about a thousand people, who

the week they will spend in getting things ready for the opening of the new firm, Bourland & Mothershead, at W. C. McLeod's old stand on Railroad street, Monday, Sept. 10. Mr. Bourland has been connected with the St. Bernard Co. store for twenty-three years and Mr. Mothershead for the past ten years. Each have many friends who hope to see them succeed in their new enterprise.

Earlier Than Usual

The tax penalty will go into effect one month earlier this year than has been the custom of previous years. One change that has been made in collecting taxes is that of leaving on personal property first to pay off the indebtedness of the defendant to the Commonwealth. These executions will be made out by the Sheriff on November 25th and the penalty goes into effect November 1st.

REPUBLICAN DISTRICT COMMITTEE MEETS

Arrangements Perfected to Hold
Convention to Nominate
For Congress.

JUDGE FOWLER OF CHRISTIAN, AND
DAVID BROWNING OF WEB-
STER, MENTIONED.

Pursuant to call of District Chairman Will P. Scott, the Congressional District Committee of the Republican party for the Second District of Kentucky met at the Second Century Hotel, at Dawson Springs, Ky., on Sept. 5th, 1906, Chairman Scott presiding. Each county of the district was represented, Judge Christian E. B. Hopkins, John B. Harvey, Webster, David Browning proxy of L. N. Baker; Union, T. B. Young, Jr.; Henderson, Thos. E. Ward; McLean, Elsworth McLean; Deivies, Dr. C. M. Heavrin; Hancock, Judge John S. Adair proxy of W. H. Brown.

The chair announced that no permanent secretary had ever been chosen by the meeting and Paul M. Moore was nominated and elected to be permanent secretary of the District Committee.

The chairman announced the purpose of the meeting was to deliberate for the time and method of selecting a candidate for Congress from the Second district. Judge James Breathitt, of Christian, then offered the following resolution, which had been drawn by himself and Mr. Harvey, of Hopkins, as follows, to-wit:

Resolutions.

"Resolved, by the Republican Congressional Committee for the Second District of Kentucky,

(1) That the chairman of the several Republican County Committees of several counties composing the Second Congressional district of Kentucky be hereby requested to call a mass convention in the several counties to convene at the county seats at 1:30 o'clock p.m., on Saturday, the 6th day of October, 1906, for the purpose of electing delegates to the District Convention which shall convene at Dawson Springs, Ky., at 2 o'clock p.m., on Saturday, Oct. 6, 1906, for the purpose of nominating a candidate for Congress in the Second Congressional district of Kentucky.

(2) "That all persons desiring to become candidates for said position before said district convention shall notify the Chairman of the Republican Congressional Committee in writing on or before Thursday, the 28th day of September, 1906. And, if upon said date there are no candidates nominated for said position, it shall be the duty of the said Congressional Committee to declare said person to be the nominee of the Republican party for Congress in the Second district of Kentucky, which Committee shall meet on the 25th day of September, 1906, to nominate said candidate."

The resolution was adopted as read. A motion by Mr. Browning to amend by fixing the place of meeting at Madisonville, seconded by Mr. Harvey, was lost.

Upon motion it was unanimously agreed that the basis of representation in the District Convention should be one delegate for each 100 votes or fraction over 50 votes cast for Republican electors in the Presidential election in 1904.

There was some good-natured discussion as to the place of holding the convention but the argument of exceptional hotel facilities advanced by Mr. Scott won for Dawson Springs.

On motion the meeting adjourned.

There was a large attendance of leading Republicans from various counties in addition to committee members and considerable talk was indulged as to probable candidates. It had been stated that there were three or more probable candidates in Christian county but inquiry at Dawson seemed to show that leaders in that county had centered upon Judge W. T. Fowler as their candidate. Clifton J. Waddell was asked over the telephone during the day, by friends whether he would permit his name in this connection, but declined. David Browning, Webster, who is a probable candidate, was there as the bearer of his county's proxy. No public announcements have been made by any candidate.

"The King of Tramps," which comes to the Temple Theatre Saturday, Sept. 8, is truly an American comedy set to "Yankee Doodle music." Unlike the so-called "Musical Comedies" (?) this play contains a real plot, with an interesting story, set in a jolly, jingling room of rollicking music. Not a jumble of old "Coon songs," but a pretty swing of melody that charms and delights the ear; real "Yankee Doodle" music sung with a vim and a dash that causes the feet to patter and the blood to tingle. A style of performance that will please all people who appreciate common sense comedy.

BLACK HAND IN ST. LOUIS

FIVE ITALIANS ARRESTED DURING SECRET MEETING.

We're Planning to Force Wealthy Italian to Give Up \$1,000—Believed to Be Anarchists.

St. Louis, Aug. 29.—Words overheard by a police man at midnight between secretaries of the Black Hand, led to the arrest of five Italians, held for investigation in connection with threatening letters, apparently written by imitators of the Black Hand society, sent to Damiana Capuano, wealthy citizen of New York.

The letters bore at different times a red cross, the sign of the Black Hand—a zigzag mark—and a skull and cross-bones. They were apparently all written by the same person, and were in Italian. The letter of the first was the most portentous of them. Each demanded \$1,000, Capuano being told in different notes to take the money to different spots.

Patrolman Tomasso, who understands Italian, was called to the Carr street station. From an Italian Tomasso learned of the secret meetings being held in the room back of 712 West street.

Tomasso slipped through a narrow doorway, stepped night and batmaned at the door to the room that had been pointed out to him. He says that for more than an hour violent voices delivered vehement addresses, declaring all government useless and unjust. Tomasso thinks the men who did this were the secretaries of the Black Hand.

Sergeant Andreuino was summoned by Patrolman Loucks. The room was entered. Five men were within, all of whom are now under arrest.

LYNCHING AND BUSINESS.

Crimes of Negroes on Level With Mob, Says Washington.

Atlanta, Ga., Aug. 31.—Booker T. Washington, in his annual address before the National Negro Business League here, declared that lynching is to a man a crime, and that it is to a woman a violation of her rights.

Returns indicate the nomination of John W. Babcock, Third district, for congress.

Little and Davis in Arkansas.

Little Rock, Ark., Sept. 5.—Returns from the state election showed John S. Little, democrat for governor and Speaker Irvine L. Long, democrat for the last assembly, his only opponent, by a majority that may run as high as 20,000. Davidson carries with him his running mate, W. D. Connor, of Marshallfield, for Lieutenant Governor, while defeated John S. Strang, of Oakwood, was comparatively light.

For the democrats, John A. Ayward of Madison, is leading Ernst Merton, of Waukesha, for first place, and John O'Meara, of Milwaukee, appears to be ahead of Michael F. Blenck, of Milwaukee, for second place.

Davidson won the nomination in spite of the fact that United States Senator LaFollette canvassed the state for Lenroot.

A WORD WITH ADVERTISERS

Guard against this lethargy overtaking you. If it goes a hold on a merchant it is like the "sleeping sickness" that attacks travelers in India. Once it has a hold on a man, he is marked, and it is pretty hard to save him.

It is easy to get into this frame of mind, but mighty hard to get out of it. All that is necessary to get out of it is to visit the park, make a walking as a dull season and then, let up on efforts and wait for it. A merchant will not have to wait long, for it approaches with giant strides in leaps and bounds, and the merchant who is overtaken by it will discover a woeful lack on the right side of his balance sheet at the end of the business year.

When you begin to think about the dull season in your locality, stop for a minute and consider the editors of the various trade papers you receive and remember that unless they kept up under full head of steam at all times and under all circumstances, you would not read their papers and they would be out a subscriber.

WHITE MAN SHOT

By Worthless Negro at Nortonville Friday Night.

James Hale, a white miner employed by the Nortonville Coal Company, was shot and probably fatally injured at Nortonville Friday night by "Babe" Southall, who is employed by the Oak Hill Coal Co. Squire Shaw and son and Luke Teague were near when the shooting was done, and recognized Southall as the man who did it.

Hale was shot three times and is in a serious condition. It is said by parties who were near that there were no words passed between the two men and that Southall was drinking. After the shooting Southall went to his home at Oak Hill where he was soon afterward arrested by Chas. Howell, City Marshal of Nortonville, assisted by Milton Sisk and Roy Blanks and carried to Madisonville.

The South's Marvelous Advantages. (Manufacturers' Record, Baltimore, August 30, 1904.)

Give free rein to your imagination and let it picture the future of a section which has one-half of the iron ore of the United States, nearly three times as much coal as Great Britain, Germany and Pennsylvania combined, which holds a world monopoly on cotton production and is rapidly becoming a great cotton manufacturing center, which dominates the phosphate rock and sulphur trade of the world, which has much of the richest oil territory known, which has one-half of the standing timber of the country, which produces all the sugar, all the rice, most of the tobacco, and adds to these 800,000 bushels a year of grain; and then think of its water powers, its splendid rivers, its great seacoast, its expanding commerce, and remember that its cotton crop alone annually exceeds the total gold and silver production of the world, and that every dollar of gold annually mined on earth is not enough to pay the South's bill against Europe for cotton, and you will get just a faint conception of the future.

No one is defeated until he gives up.

BARON VON STEUBEN STATUE.

Albert Jaegers' Model Chosen for Memorial.

Washington.—The Von Steuben statue commission, of which Secretary Taft is chairman, has awarded to Mr. Albert Jaegers, of New York, the order to execute a bronze statue of Baron von Steuben, major general and inspector general in the continental army.

Congress appropriated \$50,000 for the statue, which is to be erected at the northwest corner of Lafayette Park, in this city, and conforms in size and general type to the statues of Lafayette and Rochambeau already in place in that park.

Several German-American sculptors were invited to enter a competition last summer by a committee comprising

THE BARON VON STEUBEN STATUE

in Secretary Taft, Senator Wetmore and Representative McCreary. The result of that competition was that the committee selected the models of Albert Jaegers.

In the accepted model Gen. von Steuben appears in the familiar cocked hat and a long, full, all-embracing cloak, as though facing or enduring the hardships of the rigorous winter campaign at Valley Forge.

He stands squarely facing the observer in an attitude of power and dignity. Slightly leaning with his left hand upon the sword, he is represented as inspecting military maneuvers. His personality, thought quick and keen, is thoroughly military.

The sach he wears is reminiscent of his previous service as an lance of the Frederick the Great.

Flanking the statue at the base of the pedestal are two chaste allegorical groups. One of these represents Steuben's life work, "The Training of the American Soldier," and is worked in an ideal composition thoroughly Greek in feeling, showing an experienced warrior instructing a youth in the use of his sword.

The group on the other side is a departure from the customary symbols of paying tribute to our heroes and Americans teaching a maiden to graft a branch to Steuben's memory into her growing tree of fame.

In the design of the entire monument the sculptor, with his associate architect, T. R. Johnson, consulted Dr. George Gilman, the well-known New York physician. They took into especial consideration the location of the monument and the general scale of the other monuments in Lafayette park and adapted the design to the classic tendency of the time. The monument will form an important addition to the artistic features of the city and will be in harmony with the grand scheme of the development of Washington proposed by the park commission.

Your light heart makes every task easy.

MADE FROM NATIVE ROOTS.

SAFE AND RELIABLE.

That the roots of many native plants, growing wild in the forests of our forests, possess remarkable properties for the cure of human maladies is well proven. Even unto Indian has led the curing value of some of these and taught the early settlers their uses. The Indians used them so well that we wanted to get to well as soon as we wanted to, that she might do the work and let him hunt. That was the great remedy for me, for that was the greatest remedy for my weaknesses. Dr. Pierce uses the same root in his Colic Root and his Favorite Prescription. It is usually combined with other agents that make it perfect. It is safe and reliable. It saves from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. It cures over the lower pelvic region, with backache, spells of dizziness, faintness, and other symptoms of nervousness, go unheeded. A course of "Favorite Prescription" will work marvelous benefit to those who are suffering from a permanent curvature if persisted in for a reasonable length of time. The "Favorite Prescription" is a safe and reliable medicine wholly prepared from native medicinal roots, without a drop of alcohol in its composition. It is safe and reliable and put up for sale through druggists for woman's peculiar ailments contain large quantities of roots which are very harmful, especially to delicate women. "Favorite Prescription" contains nothing but roots, herbs and bark forming drugs. All its ingredients are printed on each bottle wrapped in foil.

This clock has a set of cathedral chimes. So beautiful are their tones that one can imagine himself in old Strasbourg, Cologne or the Notre Dame, in Paris. It took Mr. Pritchard eight months to complete the wonderful timepiece.

This clock is four feet high and a perfect timekeeper. Perfect time should be had. With such a clock to keep ought to climb the Altona grade and reach the top always exactly on time. Dollar watches are said to kill more people than automobiles, causing business men to miss connections at home. When they are to be at dinner at seven o'clock, they are not arriving until three and four in the morning, and even then are not certain that they are in the right house.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

THE OLD SILVER DOLLAR.

How dear to our hearts is the old silver.
When some kind subscriber presents it to view—

The beauty without necklace or collar.

And all the strange things that to us seem so new;

The wide spreading eagle, the arrow below it.

The stars and the words with the queer things they tell.

The coin of our fathers! We're glad that we know it,

For some time or other 'twill come in right well.

Well Worth Trying.

What the superior man seeks is himself; what the small man seeks is others.

A bath cleanses the skin and ride the pores of refuse. A bath makes for health, healthful sleep and a strong body. Not only should the outside of the body be cleansed, but certain parts used as a laxative or cathartics should be cleaned and cleared by the system. The best method for this are DeWitt's Little Early Birds. Pleasant little pills that do not grip or stick. Sold by Jno. X. Taylor.

Made Him Feel Small.

An Arkansas paper tells a story of a man who was caught out in the woods during a storm. He didn't want to get wet, and the only dry place he could find was a hollow log, into which he managed to crawl. There he lay a couple of hours, when the fellow decided he had better be going home. He tried to extract himself from the log but the soft wood had swollen and he couldn't budge a peg. There alone in the desolate woods, many miles from the nearest habitation, the poor man lay for hours thinking of all the meanness he had done, when at once it dawned upon him that he had read his home paper for three years without paying a cent for it and then refused it at the postoffice, and it made him feel so small that he crawled out of the log through a knot hole.—Ex.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's product, many imitations were offered for the genuine. These worthless imitations have similar sounding names. Bear are of them. The generic name, Honey and Tar is in a yellow package. Honey and Tar is the only safe substitute. It is the best remedy for coughs and colds. Sold by Jno. X. Taylor.

MORTALITY

(Continued from Page 1.)
strain which is said to accompany life in the latter.

Competition in bidding for mail contracts, particularly in rural districts, is fast becoming a matter of history, according to Postoffice Officials. Formerly Uncle Sam found carriers for many of the smaller routes for practically nothing, but in nearly every such case the man who holds the job nowadays receives a more or less adequate compensation. Under the old regime, the most extraordinary condition of affairs often existed. For instance, the mail carrier at Lake Charles, La., was under contract for four years to pay to the government the sum of \$50 a year for carrying the mails by steamer a distance of fifty-five miles three times each week, the value to the carrier being found, of course, in the business standing which he derived from the service. This contract has just ended and the new incumbent is

to receive a salary of \$2000 a year for doing just the same work that cost his predecessor \$50 annually. A still more curious instance of the old order is found in the case of West Bridgewater, Vt., where the carrier, for going twelve times a week to Woodstock, six miles away, received the princely renumeration of one cent each year for his services. His successor now receives \$100. A former carrier of Freedom, N.H., also distinguished himself by carrying the mails several miles early for two and a half miles a year. The job now pays \$150. Altogether, Uncle Sam's letter carriers are coming into newer and better conditions, with the automobile as a future means of distribution forms a very attractive if not yet actually existing addition.

Talk would seem to be cheap in England at present, according to information received at the State Department—that is, talk by means of mechanical devices for communication be-

tween distant points, for the English government finds itself compelled to reduce to a great extent the tolls on the telegraph lines, which it runs, in order to compete with the privately-owned telephone. A rather curious condition of affairs exists in England from the same cause, that has left her far behind the electric railways as compared to this country; that is, the municipal ownership craze, since the privately owned telephone is to a great extent used for the transmission of long distance messages which in this country on account of greater personal convenience are naturally sent by telegraph. The English government, indeed, finds increasing difficulty, according to the reports received here, in competing thro' its own telegraph lines with the telephone—about the only thing which has not yet come under the control of municipal ownership in King Edward's Isle. But even when tempted by low rates, the Englishman doesn't seem to care to take advantage of them, for, according to the latest report of the Census Bureau, Americans use the "phone" and the "wire" many times oftener than do the natives of the mother country. All of which would seem to indicate that John Bull has found his government and city business monopolies more or less of a losing game.

The shirt-waist man who came, struggled against criticism, and disappeared, is likely to find in the United States Army the perpetuator of the custom he attempted to set. Soldiers in shirt-waists, that is the gist of the suggestion recently made to the War Department by General Leonard Wood, commanding the Philippines Division. His suggestion in particular is that the troops of his command be authorized to wear the rank insignia on their shirts under conditions which make it admirable

to dispense with the coat. Unfortunately, there is no money available for the purchase of additional insignia, but the War Department has authorized the use of khaki chevrons on the shirts, and General Wood will be allowed to regulate the practice of leaving off the service coats, uniformity, however, being insisted upon in the matter in the interest of discipline and neatness.

Tie Score Decided.

Privates Chas. B. Stokes and Herbert Smothers, who made the same score at the rifle range during the encampment at Henderson, which was mentioned in last week's issue of THE BEE, decided who was the best marksman before Co. "G" left camp. Private Smothers made total score of 102 out of a possible 150 at the three ranges thereby gaining the distinction of being the second leading marksman in the local company. Mr. Stokes' score was \$1 at the three ranges.

Fifth State Development Convention.

The Executive Committee of the State Development Association met in Louisville Monday and set October 10, 11 and 12th, 1906, as the time of the Fifth State Development Convention at Winchester. Active preparations have been begun in Winchester for the convention and will be pushed from now on until the meeting in October. It promises to be the largest and most important gathering of the year in the state. A plan for a permanent organization will be presented to the convention for adoption, which it is believed will make the Association a stronger organization and give it greater power toward carrying out its objects.

Much of interest to the business people of the state will be discussed at the convention at Winchester, and plans mapped out for its work. Speakers of national reputation and special-

As a member of the state senate he presented at different times the names of J. B. Foraker and M. A. Hanna for United States senator. It was his speech when presenting Foraker's name that attracted President McKinley to him.

American Reporter Arraigned.
Her highness the maharajah of Baroda, now sojourning in New York city, complains of being annoyed by reporters. "Why is it the newspapers want to interview me?" she asked. "I have never been so pursued in my life. The things some of them say about me are not true. It is not that I never refuse absolutely to be interviewed here because it is distasteful to me, and besides I cannot see how my opinions would interest American people. America may be for ahead of India in civilization, but in India we would never make visitors to our country so unhappy. Please excuse me when you do here. It may be the way of civilization, but it is the first time in my life I have ever been pursued. I have traveled in Europe and England and never have my slightest movements been so followed by a curious crowd."
